WESLEYAN
ACCELERATING EQUALITY FOR WOMEN SINCE 1836

SINCE 1836 FIRST. NOW. FOREVER.

Your life and your world are going to go through profound changes over the next four years. Your choice of college will greatly influence how you prepare for, adapt to, and embrace those changes. At Wesleyan, you will gain the skills, connections, and opportunities to empower you to be a positive agent of change in a society that needs your leadership.

Wesleyan is the first college in the world chartered to grant degrees to women, and women who earn our degrees have gone on to succeed in virtually any field you can imagine. On campus, you will meet caring professors, supportive staff, and passionate classmates who will all be deeply invested in helping you reach your goals. My own experience, as a first-generation college graduate who has fulfilled several professional roles, has taught me that if you are surrounded by those who want to pull you up, then nothing can keep you down.

As you will see in this viewbook, our new academic programs, internships and career support, and individualized learning options are all designed to let you follow your passions and gain the confidence to perform well in whatever professional roles you find yourself. Our wide range of extracurricular activities will let you challenge yourself and develop a sisterhood that will be there for you for decades.

In all my travels, I have never experienced a place as dedicated to building community as Wesleyan College. I very much look forward to meeting you and seeing how Wesleyan will change you and how you will change Wesleyan.

Warmly,

Meaghan Blight

THREE WAYS WESLEYAN IS DIFFERENT

NO MATTER WHERE YOU BEGIN, WESLEYAN WILL ACCELERATE YOUR CONFIDENCE, YOUR CONNECTIONS, AND YOUR FUTURE.

LEARN BY DOING, NOT JUST LISTENING

How do you like to learn?

A lecture hall of 600 students or a classroom of 20?

At Wesleyan professors know your name. Discussions aren't optional, they're expected - helping you build the confidence to take part, speak up and lead. And, because classes aren't held on Friday, you'll have dedicated time for leadership experiences and hands-on learning built into your schedule.

UNDER 20 STUDENTS IN MOST CLASSES

BE KNOWN, NOT JUST ENROLLED

WOMEN CHAMPIONING WOMEN

Would you rather be lost in a crowd of thousands or live and learn in a place where your voice, goals and contributions matter?

Starting college is a big change. At Wesleyan, you will never have to navigate it alone – relationships are part of your education. Professors will know your strengths, mentors will notice when you need support, and your classmates will become the friends who encourage you to speak up, step forward, and try something new. Wesleyan women support and help open doors for one another that unlock opportunities which last long after graduation.

BUILD YOUR BEST FUTURE

Would you rather just hope that employers notice you or graduate with experiences they'll remember?

At larger universities, thousands of students may compete for a limited number of internships. At Wesleyan, every student completes a paid internship, research experience, study abroad program, or other experiential learning opportunity before graduating.

100% OF STUDENTS COMPLETE A PAID INTERNSHIP

MORE THAN 50 MAJORS AND MINORS

Mix majors and minors – or create your own – to learn what you love and shape a future that feels like your own

LEADING WITH CARE

Lindsey Goss, ‘26
Bachelor of Science in Nursing
Registered Nurse at Atrium Health Navicent Medical Center’s Level One Trauma Center

DELTA

Learning goes beyond the classroom at Wesleyan. During Delta Air Lines Industry Day, CEO Institute students traveled to Delta's global headquarters in Atlanta, where they connected with aviation leaders and explored career pathways and workplace culture inside one of the world's largest airlines.

"Wesleyan has prepared me through its academic training and rigorous coursework. I've taken classes in psychological theory and research methods, and I've also completed research with faculty and presented that research at conferences.
